

Government should regulate industry, not stifle it. Please ensure that the market for competition is open and available to visionary companies such as XM, Sirius, etc.

Satellite radio will open up better programming choices when compared to the stuff forced upon the public by media giants that own large blocks of radio in cities. Clearchannel, Viacom, etc. control major markets, influence and/or can control what the listening public can receive. STOP DESTROYING NEW TECHNOLOGY THAT CONSUMERS FIND BENEFICIAL

I STRONGLY urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I deserve.
